Globex to Drill Monster Lake Gold Corridor

Rouyn-Noranda, Quebec, Canada. GLOBEX MINING ENTERPRISES INC. (GMX – Toronto Stock Exchange, G1M – Frankfurt, Stuttgart, Berlin, Munich, Xetra Stock Exchanges and GLBXF – OTCQX International) is pleased to inform shareholders that it will shortly begin an exploration drill program to test several induced polarization anomalies identified by Globex on Globex’s 100% owned 1,450 hectares Lac à l’eau jaune property south of Chapais, Quebec. The Globex property ties onto TomaGold’s Monster Lake property and is directly on strike of the Monster Lake gold corridor where Iamgold recently announced a 6,000 metre drill program and airborne magnetic survey as the first phase of a \$17.5 million property option deal.

Globex has started line cutting which will be followed by magnetometer and induced polarization surveys in order to test additional prospective on strike ground.

This press release was written by Jack Stoch, P. Geo., President and CEO of Globex in his capacity as a Qualified Person (Q.P.) under NI 43-101.
