Globex Options Kachiwiss Uranium Area Properties

Rouyn-Noranda, Quebec, Canada. GLOBEX MINING ENTERPRISES INC. (GMX – Toronto Stock Exchange, G1MN – Frankfurt, Stuttgart, Berlin, Munich, Tradegate, Lang & Schwarz, LS Exchange, TTMzero, Düsseldorf and Quotrix Düsseldorf Stock Exchanges and GLBXF – OTCQX International in the US) is pleased to announce that it has entered into an option agreement wherein Victory Battery Metals Corp. (VR-CSE, VRCFF-OTC Pink, VR6-FWB) may earn 100% interest in four Globex claim groupings in the Sept Iles region of Quebec.

The claims cover the Kachiwiss Uranium deposit with a reported historical, non-Ni 43-101, possible resource of 16,598,000 tonnes grading 0.016% U₃O₈ within a pegmatic dyke oriented NW45°. The zone, as currently defined, measures 975 metres long by 610 metres to 760 metres wide and is open. Metallurgical test work suggests recoveries of up to 92.9% can be achieved. (Source: Quebec Government files in Sigeom)

In addition to the Kachiwiss deposit, the option includes a large package of claims covering lake bottom sediment sample uranium anomalies farther to the north. In total, **156 mining claims** make up the package with Globex retaining a 10-kilometre area of mutual interest surrounding the current claim blocks. Under the agreement, **Globex will receive \$400,000 in cash and 1,500,000 Victory shares over 3 years with Victory undertaking \$3,000,000 of work on the claims over a 4-year period.** Globex also retains a 3% Gross Metal Royalty on all metals, minerals, elements or compounds including but not limited to uranium, thorium or any other marketable product from the claims. Victory may, at anytime, purchase 1% GMR from Globex for a single cash payment of \$1,000,000.
