

STARR PEAK PLANS 2025 EXPLORATION PROGRAMS ON NEWMÉTAL AND COPPER CLIVE PROJECTS

Vancouver, British Columbia – July 7th, 2025 – Starr Peak Mining Ltd. ("Starr Peak" or the "Company") (TSXV:STE) (OTCQX:STRPF) is pleased to announce the Company's 2025 exploration plans on its 100% owned NewMétal and Copper Clive projects.

The NewMétal and the Copper Clive projects are located in the Abitibi Greenstone Belt of Québec and respectively surrounding the Normétal town and around 10 kilometers North of the past-producing Normétal Mine (10.1Mt @ 2.15% Cu, 5.12% Zn, 0.55 g/t Au, 45.25 /t Ag).

Copper Clive Property exploration phases will include:

- Geophysics airborne time domain electromagnetic survey
- Prospecting and validating geophysics anomalies
- Drilling newly defined anomalies by 2025 works to come and the known ground TDEM anomaly

NewMétal Property exploration phases will include:

- Drilling deep target at Normetmar (*See press release: Starr Peak Discovers Massive New Untested Bhem Anomaly On The Normetmar Deep Zone And Reports Drill Program Update, dated October 25, 2022*).
- Drilling soil sampling anomalies (*See press release: Starr Peak Identifies New Strong Drill Targets At Newmétal, dated June 21, 2024*).

Johnathan More, Chairman and CEO of Starr Peak commented, "I am extremely enthusiastic with the Company's planned exploration programs now that we have several high-quality targets ready to be drilled on the NewMétal project. In addition, the newly acquired Copper Clive project has great potential with the ground geophysics proving the presence of a conductor. We will be working to further define the area with future drilling."

Qualified Person

Alexis Paulin Bissonnette, Ing. (OIQ 5037621), an independent Qualified Person as defined by Canadian NI 43-101 standards, has reviewed and approved the geological information reported in this news release. The Qualified Person has not completed sufficient work to verify the historic information on the Property, particularly in regards to historical drill results. However, the Qualified Person believes that drilling and analytical results were completed to industry standard

practices. The information provides an indication of the exploration potential of the Property but may not be representative of expected results.

Normétal historical Mine and Normetmar:
Summary Report, Normetmar Project, January 1988 by L. Boivin

The Company wishes to caution that historical resources described above are historical. The historic resources are relevant to give a ballpark estimate of the potential on the property. Historical resources should not be relied upon. The key assumptions, parameters and methods used to prepare the historical estimate is not known and thus the difference between the historic estimates and NI 43-101 compliant estimates is also not known. The historical estimates used categories other than the ones set up in sections 1.2 and 1.3 of National Instrument 43-101, Standards of Disclosure for Mineral Projects. A qualified person has not reviewed the historical estimates and has not done sufficient work to classify the historical estimates as current mineral resources and Starr Peak is not treating the historical estimates as current mineral resources under National Instrument 43-101 and CIM Standards for mineral resources and reserves. Further exploration work needs to be done to correctly evaluate these historical resources. Additionally, the methodology of calculation is unknown by the qualified person.

Grab samples are selective by nature and the values reported may not be representative of the mineralized zone.

Mineralization hosted on adjacent and/or nearby properties is not necessarily indicative of mineralization hosted on the Company's property.

On Behalf of the Board of Directors of Starr Peak Mining Ltd.,

"Johnathan More"

Johnathan More
Chairman and Chief Executive Officer

About Starr Peak Mining Ltd.

Starr Peak Mining Ltd. is a Canadian based mineral exploration company focused on the acquisition and exploration of precious and base metal mineral deposits. The primary objective of the Company is to acquire, explore and develop high potential and quality gold and base metal

deposits and projects in the Americas. The Company is committed to create long term shareholder value through mineral discoveries.
