Shareholders are advised to access Globex partners press releases by clicking through to their announcements which give significant detail as well as illustrations.

Albright Metals Limited has reported initial drill results from the **Vail Road Gold Deposit** on the Devils Pike Property in New Brunswick. Intersections reported include:

- 17.42 g/t Au over 1.0 m
- 11.30 g/t Au over 0.6 m

These intersections are from the first four of fifteen drill holes. The drill program was designed to confirm historical drill results and to infill portions of the historical gold zone. Albright has not yet provided calculations of true widths. Shareholders may access the [Albright press release by clicking here](#).

Antimony Resources Corp. has reported additional high-grade antimony intersections in recent drilling on the **Bald Hill Property** in New Brunswick.

Drill assays include:

- 6.79% Sb over 2.3 m
